

ZAYAN Whitepaper

ZAYAN Pump-Map

Version 1.0 — February 2026

Executive Summary

Zayan is a bear that brings the bull to life. We are the next-generation crypto ecosystem designed to empower traders, investors, and communities with advanced automation, real-time alpha intelligence, and MEV-powered infrastructure. Zayan combines sniper technology, artificial intelligence, and optimized trading execution into a unified ecosystem built to maximize opportunity, efficiency, and profitability.

Mission

Give every holder access to elite-level tools previously reserved for insiders and professional trading firms.

Core Pillars

- Token Utility & Growth
 - Telegram Sniper Bot
 - AI Alpha Intelligence Platform
 - MEV Optimization Engine
-

Zayan solves this by delivering:

- Lightning-fast sniper execution
 - AI-powered alpha discovery
 - MEV-optimized trading strategies
 - Community-driven growth and incentives
-
-

ZAYAN Ecosystem Overview

Utilities:

- Access to premium sniper bot features
 - Access to AI alpha signals
 - Access to MEV bot infrastructure
 - Reduced fees across tools
 - Priority access to future products
 - Community rewards
-
-

Telegram Sniper Bot Features:

- Ultra-fast execution

- Auto-buy on liquidity detection
 - Custom gas optimization
 - Anti-rug filters
 - Smart contract safety checks
 - Multi-wallet support
-
-

AI Alpha Platform

Launch Date: 22 February 2026

Features:

- Real-time token discovery
 - Trend analysis
 - Smart wallet tracking
 - Narrative detection
 - Early signal alerts
-
-

MEV Bot Infrastructure

Launch Window: Q2 2026

Features:

- MEV opportunity detection
 - Arbitrage execution
 - Sandwich protection
 - Transaction optimization
 - Profit-sharing mechanisms
-
-

\$Zayan Roadmap

Phase 1 — Foundation

- Concept and development
- Infrastructure build
- Branding and design
- Smart contract creation
- Community formation
